

Landlord Approval Form

Dear Prospective Customer,

Thank you for choosing Door County Broadband as your local internet provider! To ensure you have a smooth installation experience, if you do not own the residence in which you intend to install DCB equipment, we ask that you obtain landlord approval prior to installation.

Installation of DCB equipment may involve modifications to the residence. While these modifications are often minor, standard professional installation many times includes drilling holes in order to run cable and attach a dish securely to the outside of the home. Any such type of modification may be forbidden pursuant to the terms of your lease/rental agreement or may require pre-approval by the landlord. Please be advised that landlord approval is often required with multi-tenant apartment buildings.

Please request that the landlord, or its authorized representative, complete the section below to acknowledge authorization for the installation and provide this signed form to the Door County Broadband office at the address below or via email to billing@dcb.us.com before scheduling an installation.

By presenting this form to Door County Broadband, you are granting permission to install DCB equipment and are releasing Door County Broadband from obligation to remove your system after it is installed. The signed installation permission form releases DCB (including any installation technician) from any liability related to damages your landlord may claim as a result of an alleged violation of your lease/rental agreement as it relates to the installation of your new DCB equipment.

Should your landlord only approve the DCB equipment installation subject to special requirements that make the actual install more expensive (or exceeds what DCB offers as part of its standard professional installation), you will be asked to pay a corresponding charge, to be agreed upon by you and Door County Broadband, for the additional services. In addition, please remember that technical issues may still prevent installation of your DCB equipment. Though this is rare, challenges such as poor line-of-sight to the tower can prevent installation of the DCB equipment, in which case there will be no install and no charge to the customer. Upon installation, all equipment becomes property of the customer.

I, _____ [landlord/authorized representative of DCB customer], hereby
(please print clearly)
authorize _____ [name of tenant/DCB customer] to install DCB
(please print clearly)
equipment at _____ [tenant address]
(please print clearly)
